Crawl Screencast

分析网页

The screenshot displays a web browser interface. The top portion shows a video playlist with eight items, each with a play button, a title, a duration, and a checkmark. The bottom portion shows the browser's developer tools, specifically the Network tab, which is displaying the response of a request to a cached resource. The response is a JSON object containing a list of video chapters and lectures.

Chapter	Duration	Status
1. Introduction - Github Links for Project Files	3:58	✓
2. Completed Projects - Github Links		✓
3. The Purpose of Boilerplate Projects	3:41	✓
4. Environment Setup	1:45	✓
5. Project Setup	2:53	✓
6. A Taste of JSX	11:29	✓
7. More on JSX	4:35	✓
8. ES6 Import Statements	3:58	✓
